

- In Shamisen 2.5 there is now the addition of the “Remember me” option for login, the Settings and Info tab are now under the More category.

- The new Shamisen Info page includes a list of all APIs and Libraries available for this particular Shamisen.

The screenshot shows the Awetest-Shamisen (2.5.20) application window. The top navigation bar includes the Awetest logo, 'Shamisen', 'Home', 'mAPP', 'Log', 'More', 'sales (Log Out)', and 'Exit'. A dropdown menu is open under 'More', showing 'Settings' and 'Info' (which is highlighted). The main content area displays system and library information:

<b>Operating System</b>	OS X 10.9.5 (13F34)
