Step 1: Download Shamisen

- Log on to <u>http://Awetest.com</u> (You must have an Awetest.com or an enterprise Awetest account in order to download Shamisen)
- On the "Downloads" section on the Dashboard, download the Shamisen for the specific OS (Windows or OS X) you are running.
 - This will download an executable (shamisen_x.y.exe) on Windows
 - A zip file (shamisen_x.y.zip) on Mac
- Save the files on your Hard Drive

Step 2: Installing Shamisen (Windows)

- Double Click the .exe file that you downloaded in Step 1.
- Click through the default options

Shamisen Set	up		
Shamisen Name	Default-Shamisen-Name		

Run in advanced mode

Start Shamiser

- Under More > Settings, you will be able to add/modify the specific attributes for this Shamisen worker
 - Select the Company and Project combination
 - Specify the Awetest Server (can also be done on Home page)
 - Add specific browser types and versions you have on that machine
- Once you've finished your settings, click Save

PLEASE NOTE: You can modify the settings while the Shamisen is running BUT they won't take effect until you restart the Shamisen
